Dear Hiring Manager,

As a passionate and skilled writer and game developer, I want to express my interest in the COOL position at BUSINESS. My skills and experience align well with the position's requirements, and with my history as a FELLOW and TOWNSFOLK, I know I would make a great addition to your team and the company.

Having worked on numerous game projects as a designer, developer, writer, and project manager, I've had the opportunity to sharpen my skills across the gamut of the game development cycle, from ideation to post-launch. My background in IT and web development, along with my knowlege of programming, have allowed me to quickly learn new technologies and development environments. Writing for both traditional and interactive fiction has taught me much about the caveats of each discipline, and has shown me the importance of a well written narrative.

Specifically, regarding the COOL POSITION, I excel in:

- HIJKLMNOP
- QRS
- TUV

In addition to my experience, my degree in Interactive Arts and Technology will allow me to do my work in accordance to all relevant design principles and practices. My previous experience in leadership positions has taught me the essential soft skills to work well in a team dynamic, and the autonomy of working alone. Given the opportunity, I know I would be capable of excelling at DOING THINGS IN POSITION that BUSINESS strives to achieve.

Please REVIEW APPLICATION/RESUME for additional details regarding my expertise and achievements. If you have any questions, I would be more than happy to clarify them for you. I would also love to meet with you and discuss this position in detail.

Thank you so much for your time and I look forward to hearing from you!
